

Detect Chlamydia in Single Test For Early Treatment & Management!

Anti Chlamydia Antibody IgM

@ ₹360/-

Significance

The test detects the presence of IgM antibodies specific to Chlamydia trachomatis, a bacterium responsible for sexually transmitted infections (STIs) and various health complications. This test is particularly valuable for diagnosing recent or active infections, which can lead to symptoms like genital discomfort, discharge or even complications such as pelvic inflammatory disease if left untreated.

First National Diagnostic Chain to have **100%** of its Labs with **NABL Accreditation**#
