

Don't Let Hormonal Imbalance Slow You Down **Know Your FT4 Levels Today!**

Significance

The Free Thyroxine (FT4) test measures the level of unbound thyroxine hormone in the blood, which is produced by the thyroid gland and plays a crucial role in regulating metabolism, energy levels and overall hormonal balance. This test helps in the diagnosis and monitoring of thyroid disorders such as hypothyroidism and hyperthyroidism and is often used alongside the TSH (Thyroid Stimulating Hormone) test to provide a more accurate assessment of thyroid function.

Free Thyroxine (FT4)

@ ₹300/-

First National Diagnostic Chain to have **100%** of its Labs with **NABL Accreditation**#

CAP From 2007

Trust that Thyrocare reports are **Accurate & Reliable***

Reports are released within an average **TAT of ~3.5 hours** of samples reaching the lab
