# Monitor Iron Levels for Healthy Blood

## Iron

**@ ₹ 250/-**

### Significance

The test measures the level of iron, an essential mineral needed for producing hemoglobin. This test helps evaluate iron status and diagnose conditions like iron deficiency, anemia or iron overload disorders such as hemochromatosis. The test is useful for monitoring nutritional health, managing chronic illnesses and guiding treatment for abnormal iron levels.

First National Diagnostic Chain to have **100%** of its Labs with **NABL Accreditation**#
