

Manage Blood Sugar to Master Your Health

HBA Profile (2 Tests)

@ ₹330/-

▸ HbA1c | ▸ Average Blood Glucose (ABG)

Significance

The tests assesses long-term blood sugar control and provides insights into overall glucose management. It includes the HbA1c test, which measures the average blood sugar levels over the past 2-3 months for diagnosing and monitoring diabetes or prediabetes and calculates the Average Blood Glucose (ABG) level. Regular monitoring with HBA profile is key to reducing the risk of complications and maintaining optimal health for individuals with diabetes.

First National Diagnostic Chain to have **100%** of its Labs with **NABL Accreditation***

CAP
From 2007

Trust that Thyrocare reports are **Accurate & Reliable***

98% Reports released **Within 06 hours** after samples reach the lab

**As on 5th December 2024 | *As per a survey on doctors' perception of laboratory diagnostics (IJARIIT, 2023)*
