Phadiatop

One test to know if you have an inhalant allergy or not.

Did you know?

Phadiatop Correctly Classifies More Than 9 Out Of 10 Allergic/Non-Allergic Patients

Gold Standard Immunocap Technology

Watch Out For Symptoms

- Sneezing
- Runny or Blocked Nose
- Coughing
- Breathing Difficulty
- Itching or Rash

Significance

Allergy Phadiatop – Pediatric is a simple blood test that helps detect inhalant allergies in children for 5 years or less than 5 years of age. It helps identify whether frequent cold, cough, or wheezing are caused by allergies. By confirming the allergy, it reduces guesswork and avoids unnecessary medicines, supporting early diagnosis and better allergy care as children grow.

Allergy Phadiatop Pediatric @ ₹1000/-

First National Diagnostic Chain to have **100%** of its Labs with **NABL Accreditation**#

CAP From 2007

Trust that Thyrocare reports are **Accurate & Reliable***

Reports are released within an average **TAT of ~3.5 hours** of samples reaching the lab
