

Watch Out For Symptoms

- Sneezing
- Runny or Blocked Nose
- Coughing
- Breathing Difficulty
- Itchy Watery Eyes

Significance

The Allergy Aspergillus flavus (By Phadia) test helps identify whether you have an allergic reaction to Aspergillus flavus, a common mould. It measures specific IgE antibodies to detect mould allergy by the ImmunoCAP Assay. It helps doctors understand the cause of allergic symptoms like sneezing, runny or blocked nose, itchy or watery eyes, coughing, wheezing, breathlessness and asthma symptoms triggered by mould exposure.

First National Diagnostic Chain to have **100%** of its Labs with **NABL Accreditation**[#]

CAP
From 2007

Trust that Thyrocare reports are **Accurate & Reliable***

Reports are released within an average **TAT of ~3.5 hours** of samples reaching the lab
