Veg

The Allergy Triggers May Be on the Plate, Know it in Time!

With Our In-House Allergy Food Veg Tests (By ELISA)

Significance

The Allergy Honey (By ELISA) test checks whether your body is allergic to honey by measuring specific IgE antibodies using ELISA technology. Common symptoms may include itching or tingling in the mouth, skin rashes, hives, swelling of the lips, tongue, or face, abdominal pain, nausea, vomiting, diarrhea, throat irritation, wheezing, breathing difficulty, or in severe cases, anaphylaxis after consuming honey.
